<b>The Goal of The Activity</b>	<p>The goal of safety training in schools is to equip students, teachers, and staff with the knowledge and skills necessary to prevent accidents, respond effectively to emergencies, and maintain a safe and healthy school environment. This safety training will reduce the likelihood of accidents or harm, build a culture of safety within the school, and ensure that everyone knows how to act swiftly and appropriately in an emergency, creating a secure and supportive environment for learning.</p>		
<b>Implementation Mechanism</b>	<p>Qatar Red Crescent requested to conduct a safety training session at our school, and we promptly scheduled a suitable date. In preparation, we ensured that all necessary supplies and equipment were in place for the session. Collaborating closely with their team, we made sure the training was effectively communicated to both students and school staff, ensuring everyone was well-prepared and engaged in the process.</p>		

<b>The Impact of The Activity on Students</b>	Safety training in schools has a profound impact on students by equipping them with essential skills to respond confidently in emergencies, such as first aid, fire drills, and active shooter situations. It fosters a sense of responsibility, encouraging students to look out for one another and create a safer environment.
<b>Feedback</b>	Feedback from the students was overwhelmingly positive. They expressed appreciation for the opportunity to attend the safety training and gain all the knowledge and skills necessary to prevent accidents, respond effectively to emergencies, and maintain a safe and healthy school environment.
